

Using *Overlay Maker 3* Overlay Activity Kits

What are the *Overlay Activity Kits*?

Overlay Maker 3 includes a number of overlays, overlay templates, and *Classroom Suite* activities to help customers begin using the program quickly and easily. The *Overlay Activity Kits* include ideas for teaching writing and math, Braille ideas for students who are visually impaired, and game overlays created for off-computer use. Also included are instructions explaining how to use the kits.

If *Classroom* is not installed, can the *Overlay Activity Kits* be used?

No. *Classroom Suite* must be installed to use the *Overlay Activity Kits*.

Using *Overlay Maker 3* with *Classroom Suite Network*

Will *Overlay Maker 3* work with *Classroom Suite Network*?

Yes.

Can I install *Overlay Maker 3* to a network?

No. There is no network version of *Overlay Maker 3*. *Overlay Maker 3* should be installed to a local hard drive on the user's computer.

Will the *Overlay Activity Kits* work with *Classroom Suite Network*?

Yes. Your network administrator will need to run the Network *Overlay Activity Kit* installer (found on the *Overlay Maker 3* CD in the Utilities folder).

What if *Classroom Suite Standalone* and *Network* are both installed?

The *Overlay Activity Kits* will work with the standalone version of *Classroom Suite*.

Should *IntelliTools Classroom Suite Network* users use *Overlay Maker 2* or *3*?

Network users should use *Overlay Maker 3*. The most important reason for this is that *Overlay Maker 3* creates cross-platform overlays. Overlays made in *Overlay Maker 3* can be opened (with *Overlay Maker 3*) on both Macintosh and Windows computers.
